#### Government of Karnataka Department of Technical Education Board of Technical Examinations, Bengaluru

Course Title :COMP ELEC	UTER AIDED FRICAL DRAFTING	Course Code	: 15EE47P
Semester	: <b>IV</b>	Course Group	: Core
Teaching Scheme in Hrs (L:T:P)	: 0:2:4	Credits	: 3 Credits
Type of course	: Tutorial + Practical	Total Contact Hours	: <b>78</b>
CIE	: 25 Marks	SEE	: 50 Marks

**Pre-requisites** :Engineering Drawing, Basic Computer Skills

**Course Objectives** : Prepare the student for design using Computer using CAD software.

#### **Course Outcomes:**

On successful completion of the course the student will be able to -

- 1. Understand CAD Application package for Electrical Drawing.
- 2. Develop winding diagrams of Electrical Machines.
- 3. Draw and Realise the Sectional views of AC Machines.
- 4. Understand and Draw Electrical Building Wiring, Panel board wiring, Single line diagrams.

**Course Contents:** 

Staff-in-charge must teach one hour tutorial for each Lab. The Contents to be taught in the one hour tutorial are

# Introduction to Computer Aided Drawing

# Tutorial 1 3 Hrs Software packages available, CAD software screen, Standard menus / toolbars, Navigational tools, Zoom, Pan, Co-ordinate systems, Selection of drawing size and scale, Co-ordinate points, **Performing Experiment 1** Familiarisation of CAD Software **Tutorial 2** 6 Hrs Draw commands - line, line type, circle, arc, rectangle, polygons, array, polyline, text, multitext, explode, hatch, polygons, array, polyline, text, multitext, explode, hatch **Performing Experiment 2** Practice the commands using CAD software. Create simple drawing using above commands. **Tutorial 3** 6 Hrs Editing commands - erase, copy, move, offset, mirror, rotate, trim, extend, break, chamfer, fillet, layer. **Performing Experiment 3** Practice the commands using CAD software. **Tutorial** 4 3 Hrs Dimensioning commands - linear dimensioning – horizontal, vertical, aligned, baseline, continuous, diameters, radii, chords, arc, angle. Leader, Arrow. **Performing Experiment 4** Practice the commands using CAD software.

# WINDING DIAGRAMS

### Tutorial 5

DC armature winding – double layer progressive lap, winding table, sequence diagram.

# **Performing Experiment 5**

Draw the developed winding diagram of 24 conductor 4 poles Double Layer progressive lap winding.

3 Hrs

Printing/plotting	
Tutorial 6	3 Hrs
Print/Plot – Printer selection, paper size selection, Selecting drawing portion to plot, scaling, se horizontal and vertical alignment for plotting	etting
Performing Experiment 6	
Preparing paper layout and Plotting the drawings.	
Tutorial 7	3 Hrs
DC armature winding – double layer progressive wave, winding table, sequence diagram.	
Performing Experiment 7	
Draw the developed winding diagram of 26 conductor 4 poles Double Layer progressive wave winding.	;
Tutorial 8	3 Hrs
3 Phase AC stator winding - AC full pitched lap winding.	
Performing Experiment 8	
Draw the developed winding diagram of 24 conductor 4poles 3ph AC full pitched lap winding	5.
Tutorial 9	3 Hrs
3PhaseAC stator winding - AC short pitched lap winding.	
Derforming Experiment 0	
renorming Experiment 9	

#### ASSEMBLY DIAGRAMS

Tutorial 10	6 Hrs
DC machine – Main pole and field coil assembly.	
Performing Experiment 10	
Draw the sectional end view and front view of main pole and field coil assembly of a dc mac	hine.
Tutorial 11	9 Hrs
DC machine - Yoke and pole assembly.	
Performing Experiment 11	
Draw the sectional end view and front view of yoke and pole assembly of a dc machine.	
Tutorial 12	9 Hrs
AC 3 phase alternator - Stator assembly.	
Performing Experiment 12	
Draw the sectional end view and front view of AC machine stator assembly.	
Tutorial 13	9 Hrs
AC induction motor - Squirrel cage rotor assembly.	
Performing Experiment 13	
Draw the sectional end view and front view of squirrel cage rotor assembly.	
Tutorial 14	6 Hrs
Transformer - Single phase core type transformer.	
Performing Experiment 14	
Draw the sectional and front view and plan of single phase core type transformer.	

# FREE HAND SKETCH

Tutorial 15	3 Hrs
LT distribution panel board- construction, components, connections	
Performing Experiment 15	
Prepare LT Main Panel board General Arrangement diagram as per requirements.	
Tutorial 16	3 Hrs
Tutorial 16 Single line diagram – using standard symbols.	3 Hrs
Tutorial 16Single line diagram – using standard symbols.Performing Experiment 14	3 Hrs

## **Composition of Educational Components:**

Questions for CIE and SEE will be designed to evaluate the various educational components such as:

Sl. No.	Educational Component	Weightage (%)
1	Remembering	20
2	Understanding	20
3	Application/ Analysis	60
	Total	100

# Mapping Course Outcomes with Program Outcomes: (Course Outcome linkage to Cognitive Level)

	Course Outcome	Experiment linked	PO Mapped	Cognitive Level	Lab Sessions
CO1	Understand CAD Application package for Electrical Drawing.	1,2,3,4,6	2, 3, 8, 9, 10	R/U/A	15
CO2	Develop winding diagrams of Electrical Machines.	5,7,8,9,	2, 3, 8, 9, 10	U/A	12
CO3	Draw and Realize the Sectional views of AC Machines.	10,11,12, 13,14	2, 3, 8, 9, 10	U/A	15
CO4	Understand and Draw Electrical Building Wiring, Panel board wiring, Single line diagrams.	15,16,	2, 3, 8, 9, 10	U/A	6

U-Understanding; A-Analysis; App-Application.

# **Course-PO Attainment Matrix**

Course	Programme Outcomes									
	1	1 2 3 4 5 6 7 8 9 10								
Computer Aided Electrical Drafting	-	3	3	-	-	-	-	3	3	3

Level 3- Highly Addressed, Level 2-Moderately Addressed, Level 1-Low Addressed.

Method is to relate the level of PO with the number of hours devoted to the COs which address the given PO. If  $\geq$ 40% of classroom sessions addressing a particular PO, it is considered that PO is addressed at Level 3 If 25 to 40% of classroom sessions addressing a particular PO, it is considered that PO is addressed at Level 2 If 5 to 25% of classroom sessions addressing a particular PO, it is considered that PO is addressed at Level 1 If < 5% of classroom sessions addressing a particular PO, it is considered that PO is considered not-addressed.

#### **Course Assessment and Evaluation:**

Method	What		To Whom	Frequency	Max Marks Practical	Evidence Collected	Course Outcomes
Direct Assessment	aluation)	I A Tests		Practical: Two IA tests (Average of IA test marks will be computed)	10	Blue Books	1 to 4
	CIE s Internal Eva	Record Writing	Students	Record Writing (Average of Marks allotted for each expt.)	10	Lab Record	1 to 4
	(Continuou	Student Activity		Student Activity	5	Paper work and Printout	1 to 4
				TOTAL	25		
	SEE (Semester End Examination)	End Exam	Students	End Of the Course	50	Answer Scripts	ALL COs
Indirect Assessment	Student Feedback on course		Studente	Middle Of The Course		Feed Back Forms	1, 2, 3,4
	End S	Of Course Survey	Students	End Of The Course		Questionnai re	ALL COs

\*CIE – Continuous Internal Evaluation \*S

\*SEE – Semester End Examination

Note:

- 1. I.A. test shall be conducted as per SEE scheme of valuation. However obtained marks shall be reduced to 10 marks. Average marks of two tests shall be rounded off to the next higher digit.
- 2. Rubrics to be devised appropriately by the concerned faculty to assess Student activities.

### **Suggested Student Activity:**

Student has to perform any **ONE** activity from the list given below and submit self handwritten single line diagram collected from the place student visited and draw the same using CAD. Submit printout along with.

- 1. Visit nearby factory, get layout diagram of the shop floor. Draw the same using CAD.
- 2. Visit the nearby substation, get different single line diagram of substation. Draw the same using CAD.
- 3. Draw the single line diagram of polytechnic laboratory.
- 4. Draw single line diagram of panel board available in polytechnic/factory/substation
- 5. Draw the layout of machines in any laboratory.
- 6. Draw basic electrical & electronic components and circuits.

Dimen			Scale			Students score				2

# Scheme of Valuation:

## Examination Duration - 04 Hrs

Sl. no.	Performance	Max. Marks
1.	Winding diagrams Calculation + developing winding diagram on monitor sequence diagram OR Free Hand Sketch Any one exercise in detail + Index (legend)	5+15 = 20
2.	Assembly drawings Sectional end view and front elevation(Front elevation and plan in case of transformer)	15+10 = 25
3.	Two printouts	5
	TOTAL	50

Standard drawings are to be given for free hand sketch and assembly drawing.
